AVAILABILITY OF REFERENCES CITED

Loans. Most of the material in the National Agricultural Library collection may be borrowed by employees of the Department of Agriculture and by other libraries. In requesting loans, please include the library call number found at the end of the citation.

Reproduction. Microfilm or photoprint copies of any portion of most of the publications listed in this bibliography may be obtained by placing an order with the National Agricultural Library at the address noted below. Copying charges are:

MICROFILMS:	$1.00 for each 30 pages or fraction copied from a single article or book.
PHOTOPRINTS:	$1.00 for each 4 pages or fraction copied from a single article or book.
RUSH SERVICE:	$1.00 additional for each order.

Payment must accompany the order. Cash, Library coupons, check or money order drawn to the National Agricultural Library are acceptable. Payment for orders originating outside of the United States should be made by International money order or draft on an American bank, or by UNESCO book coupons. Superintendent of Documents coupons and requests to furnish photocopy to be paid from Superintendent of Documents Deposit funds cannot be honored. Credit may be extended to Government agencies and institutions. Billing address, if other than the mailing address, should be indicated in the appropriate place. Please include ZIP Code in all addresses. PLEASE GIVE COMPLETE BIBLIOGRAPHIC INFORMATION AS IT APPEARS IN THIS PUBLICATION FOR EACH ITEM REQUESTED.

Library Coupons. National Agricultural Library coupons, valued at $1.00 each, may be purchased in any quantity

Address. Orders for photocopy or Library coupons, requests for order blanks, or questions regarding loan arrangements may be sent to:

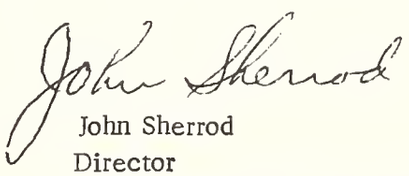
PREFACE

Over the past years, extensive research on the different phases of the marketing of livestock, meat and meat products has been published, but reporting of this research is scattered in various publications. In order to help research workers realize the full potential value of this research, this bibliography has been prepared. It is a highly selective listing of references dealing primarily with the economics of marketing and its phases. However, only a limited amount of material has been included on grading, standardization, quality, and meat technology as these areas will be covered more fully in later bibliographies.

Arrangement is alphabetical under broad subject classification. For the most part, articles in trade journals have been omitted. Call numbers following the citations are those used in the National Agricultural Library. References and abbreviations of journal titles are cited as they appear in the list of sources consulted.

This bibliography was undertaken at the request of the Economic Research Service and is patterned after Bibliographical Bulletin no. 15, "Bibliography on the Marketing of Livestock, Meat, and Meat Products", issued June 1951 except as noted in the foregoing paragraphs. Grateful acknowledgment is made of the advice and assistance by the agency coordinator, Dr. Richard J. Crom, Leader, Livestock Group, Animal Products Branch, Marketing Economics Division, Economic Research Service.



John Sherrod
Director
National Agricultural Library
